Be Careful

Jason Derulo

Have you ever had the feeling you were being watched?
Footsteps behind you like a shadow when you walk?
Can't tell if your mind is playing tricks or not?
What I'm going through is now knocking brain
thinking back, now do I got any enemies?
Where I've been, what I did, what did I say?
Eh, eh, eh, eh, yeah!Come to think of it, I remember 1 chick,
that I was messing with when I was in Connecticut.
I met her after my show, I took her back to my room.
The next day I had to go.I never thought it would get this deep.
Now I got this problem following me.
You better be careful! You better be careful!
Better be careful whose heart you break.
Never knowing what you do or say, will send them over the edge, so
Next time I'll be careful!I'm getting letters every other day addressed to me
saying: "Dear Jason, you & I were meant to be.
Tell me you feel the same or it will be the death of me!"
Eh, eh.
It gets worse now she reaching out to all my people;
friends & family.
Got me so paranoid, I'm stacking up security.
It's getting crazy here; it's difficult for me to sleep.
Eh, eh, eh, eh. You know!Now all I'm thinking is: how do I get out of this?
I'm feeling kind of sick. Damn this is some crazy shit.
I met her after my show, I took her back to my room.
The next day I had to go.I never thought it would get this deep.
Now I got this problem following me.
You better be careful! You better be Careful!
Better be careful whose heart you break.
Never knowing what you do or say, will send them over the edge, so
Next time I'll be careful!This got so out of control, I learned my lesson now so.
Oh, oh, oh, be careful!
She's holding on, won't let go.
She wants a piece of my soul.
Oh, oh, oh, be careful!
I met her after my show, I took her back to my room.
The next day I had to go.I never thought it would get this deep.
Now I got this problem following me.
You better be careful! You better be Careful!

Better be careful whose heart you break.
Never knowing what you do or say, will send them over the edge, so
Next time I'll be careful!
