

# One Light Shining (feat. Jonathan Jackson)

## Nashville Cast

Let it rain, let it pour  
I'll always get this ship to shore  
Baby, it's crazy  
The things that I would do for you  
The hell that I would walk right through  
To save you, yeah to save youFrom now on you're never gunna be alone  
If you get lost I'll be there to bring you homeIn the middle of a dark night  
I'll be your one light shining  
Your one light shining girl  
I'll keep you safe until the red sunrise  
Be your one light shining  
Your one light shining, commonLet your deepest secrets slip  
Off your chest, off your lips  
I promise, I'll keep 'em  
There ain't nothing you could say  
To ever make me walk away  
I'll hold on, believe meHeaven knows ain't no ghosts in this house  
Close your eyes baby, let the candles burn outIn the middle of a dark night  
I'll be your one light shining  
Your one light shining girl  
I'll keep you safe until the red sunrise  
Be your one light shining  
Your one light shining, commonI'll be your one light shiningCome, we're in this thing together  
I ain't afraid to say forever  
You come, and I'll come running after youIn the middle of a dark night  
I'll be your one light shining  
Your one light shining girl  
I'll keep you safe until the red sunrise  
Be your one light shining  
Your one light shining, common  
I'll be your one light shining, common
