

Firewalk

Brimstone Howl

[Music & Lyrics: Klas]

[Arrangement: Robert, Mikael]Late at night while you're asleep

I come for you my dear

I would like to show you how, how to firewalk

You should know, how I feel

I love you, come on let's burnGet inside my firecircle, hand in hand we burn

Round and round we spin my darling

Can you feel the heatHow about a firewalk, through the flames with you

Can you feel the trance I bring

It takes you somewhere else

I am scared to do you harm

I love you, come on let's burnAfter all the choice is yours, if you want to stay

I cannot force you dear, you mean too much for me

You should know, how I feel

I love you, come on let's burnGet inside my firecircle, hand in hand we burn

Round and round we spin my darling

Can you feel the heat
