

# Eileen

## Skid Row

There are things we cannot see that hang  
Within her sight  
There are people we won't remember that  
Dance with her at night Eileen's calling me  
To sit awhile and talk to trees  
Eileen can't you see  
The songs you sing are scaring me Eileen, Eileen She's romancing with the moon  
Full and alone  
It's really a street light  
It's something we all know Eileen's calling me  
To sit awhile and talk to trees  
Eileen can't you see  
The songs you sing are scaring me Eileen, Eileen, Eileen There are things we cannot see that hang  
Within her sight  
It's really a street light  
It's something in her night Eileen she's calling me  
To sit awhile and talk to trees  
Eileen can't you see  
The songs you sing are scaring me Eileen's calling me  
To sit awhile and talk to trees  
Eileen, oh can't you see  
The songs you sing are scaring me Eileen, Eileen I, I know what she knows  
I know what she knows  
I know what she knows  
I know what she knows
