For A Little While

Ernie Graham

Well, her hair was the color of the sun
Falling down her greatest fear
And her lips yielded soft, turned me on
She made love to me so sweetly
She took away my years(Chorus)
She was mine for a little while
Bringing warmth into my bed
She was mine for a little while
How I loved it when she saidI love youOn the eve of the fifteenth of May
Well, I remember what she said
She said, I am glad you come my way
Then she thanked me for the present
Good memories was grown in.(Chorus)
She was mine for a little while
Bringing warmth into my bed
She was mine for a little while
How I loved it when she saidI love youLa la la la la la
La la la la la la
La la la la la la
La la la la la la lax3Now the line it is drawn
The curse is kissed
And i've gone my way alone
Sometimes feeling not the best
And I think about a constant
And the spring of '69(Chorus)
She was mine for a little while
Bringing warmth into my bed
She was mine for a little while
How I loved it when she saidI love youLa la la la la la
La la la la la la
La la la la la la
La la la la la la lax3
