

Ruin and Renew

Blue Meanies

Just can't seem to get up today
What was old and what was new
It's all the same today
The sun crept out the same as you Exhale, exhale
Last breath smile You changed my whole direction
The unexpected slap in the face
You were as happy as Prozac
My prescriptions been replaced Exhale, exhale
Last breath smile Ruin and renew
Ruin and renew
Cut and paste here
Cut and paste here Politics of your relations
I can't stand in the fixation Cut and paste here
Cut and paste here Music's a happy daydream
Clouds race by like thoroughbreds
There's one thing I must remember
Someday all of this will end, pretend
