

Lonely Swedish Girl

This Frontier Needs Heroes

It Might be snowing outside, but it's sunny in my heart
It's a tragedy that oh baby we must live so far apart
All I want from the world is a Lonely Swedish girl
Cause that would make all this pain seem to go away
Lonely Swedish girl though I can't afford a plane
Ill widdle you a boat so I can float all the way to Spain
"But that's not far enough" I don't want to be your pen pal
I just want to make you smile
And if I started widdling now
That would take too long awhile
Lonely Swedish girl
Can I turn your eyes from grey
If I rolled a bed of hay
Would you spend the night with me
Lonely Swedish girl the way that your hair curls
Will send me into swirls all the way to the Baltic Sea
"But that's too far!" I don't want to be your pen pal
I just want to make you smile
And if I started widdling now
That would take too long awhile
Lonely Swedish girl
Lonely Swedish girl!
