

# Consensual Harassment

## Iron Reagan

I got some champagne  
You got some some wine  
We're gonna have us a sensual time I got some candles  
You got a rose  
Let's annoy all those that turn up their nose They just can't handle seductive expression  
They may think its gross when we teach them the lesson  
I wont cross the line, let your body be free  
Let's harass the world sensually
