

# Tooth and Nail

## State Champs

When all else fails, I'll just assume I'm overtired  
But I'll go tooth and nail to find a way to stay inspired  
She's got a beautiful mind but my heart strings are bending  
How could I enter a maze with no ending?  
There's more to me than where I came from, so I'm running away from the days that made me unstable  
And I'm taking a chance on the lesson I learned  
It's that, whoa, you got the best of me  
But no, you won't take what's left of me  
So I'm running away, I'm running away from you and me  
(From you and me)  
The piece that's missing is buried underneath the ground, you see  
If this is temporary, I don't wanna lie to myself anymore  
Well baby, I'm breaking out of this upstate town  
I'm steering away from the safe and sound  
There's more to me than where I came from, so I'm running away from the days that made me unstable  
And I'm taking a chance on the lesson I learned  
It's that, whoa, you got the best of me  
But no, you won't take what's left of me  
So I'm running away, I'm running away from you and me  
(From you and me) I always wanted to be somebody  
That makes everybody feel like somebody  
I'm sorry to say I don't love you more than myself  
No need to cry for help  
I'm running away from the days that made me unstable  
And I'm taking a chance on the lesson I learned  
It's that, whoa, you got the best of me  
But no, you won't take what's left of me  
So I'm running away, I'm running away from you and me  
(From you and me)
