Luminous

Jedward

We see the day trying to fight it It's all in vain, cause we know the night wins But we don't care, we'll light it up like a flare It's so unreal, the light that's shining You make me feel like the darkness won't matter Cause you and i don't care when the day is gone We don't need the break of dawn We don't need the break of dawn (Chorus x2) And i will always know where you are Cause i can see you glow in the dark We got the stars and moon in us We're always gonna be luminous The world is frozen, your body's warm We fall out of our bed the city falls asleep and we're reborn Won't bother to seize the day We don't care, no, cause We own the night, As soon as you kiss me The sun'll hide Ain't gonna miss it Cause you and I don't care when the day is gone We don't need the break of dawn (Chorus x2) We are always gonna be Luminous yeah yeah
