

Jimmy

The 69 Eyes

Jimmy I would've never thought you could be crying
As you saw Jimmy in Giant
Angels never sinned since they stopped flying
Bright beautiful flames burn brightly that's the same Little runaway with my heart
I'll be waiting
Little runaway with my heart
For you baby I would've never thought I could be crying
On this dirty old boulevard the dreams are dying
Where the lonely teardrops never be drying
Bright beautiful flames always burn brightly that's the same Little runaway with my heart
I'll be waiting
Little runaway with my heart
For you baby Little runaway with my heart
Little runaway with my heart Little runaway with my heart
I'll be waiting
Little runaway with my heart
For you baby Little runaway with my heart
I'll be waiting
Little runaway with my heart
For you baby
