Don't Make Me Laugh

The Fatalitees

A couple of minutes of Nixon's life's unknown
Was Ronald Reagan really Hitler's clone
I don't need love or a home on the range
I just wanna see the entire world change

Respect
Telling lies
Used
Nice try

Everything's fake nothing is real
Everybody's always making a big deal
Trying to make fools out of us
Then they're mad when they don't gain our trust

Respect
Telling lies
Used
Nice try

Don't make me laugh
