

# Don't Make Me Laugh

## The Fatalitees

A couple of minutes of Nixon's life's unknown  
Was Ronald Reagan really Hitler's clone  
I don't need love or a home on the range  
I just wanna see the entire world change

Respect  
Telling lies  
Used  
Nice try

Everything's fake nothing is real  
Everybody's always making a big deal  
Trying to make fools out of us  
Then they're mad when they don't gain our trust

Respect  
Telling lies  
Used  
Nice try

Don't make me laugh
