Verse 1:
Now not that all the time that you take
To get ready ain't good for something
Not that the trip to the plaza
Spend a couple hours by yourself shopping's nothing
Not that the beautiful sundress don't look good
The way it falls around those hips
It's not that that ain't sexy love
But nothing looks as good as what's underneath itChorus:
Nothing looks as good as my body on you
Nothing looks as good as you
It really don't matter how you dress your body girl
Cause nothing looks as good as youVerse 2:
It's not that the sun don't shine through that dress
Like I love to see summer
It's not that the way that it feels on your body
Ain't soft enough
It's not that those panties that you got on
Don't look like they can keep my kitty safe
Not that the moment we're taking them off don't look great
But soon as they're coming down your legs I'm thinking
[Chorus]Bridge:
You're taking me there
Nothing compares to the lovely way
Your heavenly shape
It bends and twists and knocks me off my feet
Aw baby, you're doing your thing, you're working for sure
And under them clothes it's a beautiful thing
Your legs and hips ain't nothing better than that now baby
