

# The Little Things About Us

[Dean Brody](#)

I like when you come hang out with me  
In my messy apartment when we watch TV  
And I cook you dinner  
While you settle into my couch And I like how we go down to the laundromat  
And sip on grainy old coffee and fold our blue jeans and laugh  
And buy those funnel cakes at the river  
And feed those fat pigeons our crumbs It's the little things about us  
That I love so much Your pretty eyes, your pretty smile  
Your laughing out loud  
The way you look when fast asleep  
On my pizza-stained pull out couch  
I like how we can waste a whole afternoon  
Chillin' with the freezin' at Eddie's garage  
On the hot roof of your truck It's the little things about us  
That I love so much So much, so much Your pretty eyes, your pretty smile  
How we can talk for hours  
Ain't it funny how the little things  
Just seem to work the bigger things out How I eat your burnt toast  
You think that I think it's good  
Dream 'bout kids we ain't had yet  
Or even if we would  
How our long shadows kiss  
On the swings in the park around dusk It's the little things about us  
That I love so much  
So much, so much
