

All To All

Broken Social Scene

Call of forgiveness
I'm like the beat of the hurt
I'm not the only one
You tried to save when you fell out
Call of forgiveness
I'm like the clean in the dirt
I'm not the only one
You tried to crave when you fell out
Try, wait
You made your life on everything
Hard, made
You made your life on everything
Try, wait
You made your life on everything
Long, fade
You made your life on everything
Call of forgiveness
I'm like the heal of the hurt
I'm like the only one
You tried to save when you fell out
Call of forgiveness
I'm like the queen of the dirt
I'm like the only one
Who tried to stay when you fell out
It's like the common law
Was wall to wall and almost faded
I've seen the gone to small
The lost of law, the almost made it
It seems like mine to shine
You'll always find the lonely ray
It's like the wall to fall, the fall of all
The laws are graded
I've seen the lies that call
The pictures tall, the lines are made in
It's like the fight to crawl
My darling, all you've lived your age
I know it's all to all, all to all ultimatum
It's like the all to all, all to all ultimatum
It's like the all to all, the all to all the ultimatum
I know it's all to all, all to all ultimatum
Just like the all to all, all to all ultimatum
It's like the all to all, the all to all the ultimatum
You made your life on everything
You made your life on everything
