

You Make My Heart Beat Faster

Kim Carnes

A combination makes the spark
We fuel the fire then watch it grow
A stimulation to the heart
I lose my head
Out of control Pulling me over, running me through
I'd be right there in a beat (beat) boy
I'd do anything to be with you
I lose my breath
Out of control You make my heart beat faster
And that's all that matters
You make my heart beat faster
And that's all that matters
You make my heart beat faster
And that's all that matters
You make my heart beat faster
And that's all that matters Imagination turn the key
Snap the shot
It's in my head
Anticipation grabbing me
I lose my breath
Out of control
