Burn Out

TGT

Who turned on the lights? You shinin through
Even in this dark room, you're the truth
It's something bout your eyes I can't explain
She glidin through these bright lights, it's kinda strange
It ain't the strobes, no
Everybody knows it's you, babe you
It's dark as night, one more girl
Got her looking like it's you, you doGirl you can never burn out
Keep burning baby, Keep burning baby
I love the way you shine
Girl you can never burn out
Keep burning baby, Keep burning baby
Gotta make you mine[Chorus]
I wanna take you to a burning place
And watch you make the room illuminate
You'll never burn out, no
You'll never burn out, no
You'll never burn outI can't look away and why would I try?
Staring in your brown eyes, I get high
I didn't know til now you're what I need
Either I'm in love or I'm in heat
It ain't the strobes, no
Everybody knows it's you, babe you
It's dark as night, one more girl
Got her looking like it's you, ohAnd you'll never burn out
Keep burning baby, Keep burning baby
I love the way you shine
Girl you can never burn out
Keep burning baby, Keep burning baby
Gotta make you mine[Chorus]
I wanna take you to a burning place
And watch you make the room illuminate
You'll never burn out, no
You'll never burn out, no
You'll never burn outWhat I see is brighter than a flame
And no store could shine quite the same
So let me explore what's new
Help me, show me what's deep inside of youYou'll never burn out
Keep burning baby, Keep burning baby

I love the way you shine
Girl you can never burn out
Keep burning baby, Keep burning baby
Gotta make you mine[Chorus]
I wanna take you to a burning place
And watch you make the room illuminate
You'll never burn out, no
You'll never burn out, no
You'll never burn outKeep burning baby, Keep burning baby
I love the way you shine
Keep burning baby, Keep burning baby
I Gotta make you mine
I wanna take you to a burning place
And watch you make the room illuminate
You'll never burn out, no
