Just One Kiss

Raphael Saadiq

It was that one kiss from you
That changed my life in just a minute girl
It was that one kiss from you
That changed my life into a world of gold
It was just that kiss from you
That showed me what I truly needed most, needed most
It was just that kiss from you
That showed me life can be so beautiful
Beautiful, beautiful, ooh ooh
It's like you're taking the words right out of my mouth
(Yeah)
And say exactly how I feel
(Yeah, yeah)
I could fool a few but never you, never you
So I keep trying to find, yeah
You sure picked the right time, lady
To come into my life
(You know I did)
One kiss from you, one kiss from you
And then I knew, ooh, ooh
That this was something, ooh, ooh
Just one kiss from you
That changed my life in just a minute girl
(Hmm, yes it did)
It was just that kiss from you
(Ooh ooh)
That showed me life can be so beautiful
Beautiful, beautiful, ooh, ooh
Come on girl, come on boy
Bring it on down, bring it on down
Come on girl, come on boy
Bring it on down, bring it on down
Come on girl, come on boy
Bring it on down, bring it on down
