

Here

Pet Shop Boys

We all have a dream of a place we belong
The fire is burning, the radio's on
Somebody smiles and it means 'I love you'
But sometimes we don't notice when the dream has come true
You got a home here
Call it what you want, you got a home here
To return to when you can't face the world
And you need some support to succeed
You got a home
We all make a mess of our lives from time to time
It's part of the process that you stumble as you climb
And if you ever feel the pain is far too big a deal
I say with pride, "I'll be on your side"
You got a home here
Call it what you want, you got a home here
You're gonna want it when you can't face the world
And you need some support to succeed
You got a home
You've got a home
