Pink Cloud

Little Dragon

Listen day by day Post the work you share Drivin' in a lifetime Watching the silver blowing hair Watching the cats lined in a row Catching eyes and forcing zoom Electric clouds of information to fall down Too fast!My world spin faster Your world spin faster My world spin Your world spin Our world spin fasterBlind, I'm blind, I'm blind I couldn't follow rules if I tried Now we fall at such a speed Leaving kind for machine Leaving souls stare are screens So caught up with the things I don't need So fast!The world spin fast My world spin faster Your world spin Our worlds spin The world spin faster
