

Miracle

Swati Natekar

It's hard to see reason
When there's so little hope alive
 This is the season
 To put faith in innocent eyes
 We're all thinking too much
 We're so out of touch
 We need to start over again
 So just let it wander
'Cause you're never too old to pretend
 Tell you, just a little miracle
 Is all you need to believe
 Just a little miracle
 Is all you need to believe
 It's not too late to wake up
 Don't make no difference who you are
 Just take off your make-up
 And discover the child in your heart
 Tell you, just a little miracle
 Is all you need to believe
 Just a little miracle
 Is all you need to believe
 We're all thinking too much
 We're so out of touch
 We need to start over again
 So just let it wander
'Cause you're never too old to pretend
 Tell you, just a little miracle
 Is all you need to believe
 Just a little miracle
 Is all you need to believe
