

# Let's Keep It Together

Lari White

Don't move, don't breathe  
This is that pivotal moment we ask ourselves, what's it gonna be  
Don't think just feel  
Feel around inside your heart for something real You can't look me in the eye and tell me you wanna say  
goodbye  
We got a good thing we just gotta keep believin' baby  
Oh, let's keep it together  
Let's keep it together  
Let's keep it together  
Oh, let's keep it together  
Let's keep it together  
Let's keep it together  
Oh, let's keep it together Now we could chalk it up and call it a day  
And say we tried and wash our hands and simply walk away  
All that I recall when we made love  
We made the sweetest love there ever was You can't look me in the eye and tell me you wanna say goodbye  
We got a good thing we just gotta keep believin' baby  
Oh, let's keep it together  
Let's keep it together  
Together
