

# With You Around

## Yellowcard

Do you remember when I said you were my only one?  
We were running underneath the California sun  
Well, now I look at you and you're still more than I can take  
You're like a slow song, starting to accelerate  
And all my life I looked for you  
For arms that I can fall into  
All I can think about is you with me  
Driving with the Saves The Day record on  
We were singing until our voices were gone  
And I was falling hard, you were barely hanging on  
And now I want to chase forever down with you around  
You are making movies in your head when you fall  
asleep  
Have a nightmare dreaming that I'm gonna leave  
I know you've always been afraid of ending up alone  
Somebody hurt you, now you're waiting on a dial tone  
But I'm right here, so don't get blue  
It's not just you, I need this too  
All I can think about is you with me  
Driving with the Saves The Day record on  
We were singing until our voices were gone  
And I was falling hard, you were barely hanging on  
And now I want to chase forever down with you around  
We were running underneath the California sun  
We were underneath the California sun  
All I can think about is you with me  
Driving with the Saves The Day record on  
We were singing until our voices were gone  
And I was falling hard, you were barely hanging on  
We put our record on  
Kept singing until our voices were gone  
And I was falling hard, you were barely hanging on  
And now I want to chase forever down  
We were riding underneath the California Sun  
I just want to chase forever down with you around
