

# Subzero

## Embrace

Dark cold around me  
This cold inside me  
My soul is frozen and  
    Alone in the dark  
Shelter my naked body  
    Shovel me a grave  
    My beautiful home  
    Shovel me a grave  
In subzero I was born  
    In subzero I will die  
Mother earth is frozen and  
    Covered with snow
