## Ludacris

Oh! Oh! Oh! Say it (make love to me)  
Oh! Oh! Oh! What? (fuck, me!)  
Oh! Oh! Oh! Say it (make love to me)  
Oh! Oh! Oh! What? (fuck, me!) I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!) I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!) They want it nice and slow, kiss 'em from head to toe  
Relax and let it go, say it (make love to me)  
They want it now and fast, grabbing and smacking ass  
You gotta make it last, what? (fuck, me!)  
Together holding hands, you out there spending grands  
And making family plans, say it (make love to me)  
Don't have to straighten facts, don't want no strings attached  
Just scratches on your back, what? (fuck, me!)  
Ex's ain't acting right, and you so glad to fight  
Dinner's by candlelight, say it (make love to me)  
She got a nigga whipped, down to ya fingertips  
Trying that freaky shit, what? (fuck, me!)  
Turn on some Babyface, just for your lady's sake  
You call her babycakes, say it (make love to me)  
Know how to mack a broad, she's on your sack and balls  
You call her Jabberjaws, what? (fuck, me!) I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!) I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!) You bout to buy a ring, she needs the finer things  
Gucci designer frames, say it (make love to me)  
Purchase a nasty flick, wrap up and tie her quick  
Know how to drive a stick, what? (fuck, me!)  
You both unite as one, you the moon and she's your sun  
Your heart's a beating drum, say it (make love to me)  
You better not of came, she want to feel the pain  
Then hear her scream your name, what? (fuck, me!)  
Follow this DICK-tionary, you're both some visionaries

Then do it missionary, say it (make love to me)  
I hear 'em call the wild, and do it all the while  
Doggy and froggy style, what? (fuck, me!)  
You in between the sheets, licking and eating sweets  
And what you find you keep, say it (make love to me)  
You do it standing up, orgasms hand 'em up  
Y'all just don't give a fuck, what? (fuck, me!)I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!)I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!)You wanna tell the world, cause she's your favorite girl  
Your diamond and your pearl, say it (make love to me)  
Nobody has to know, just keep it on the low  
And meet 'em right at for, what? (fuck, me!)  
Nothing but fights and fussing, plus there's a lot of cussing  
Just grab a hold of something, say it (make love to me)  
Y'all do that BAD stuff, she like it rammed up  
Ropes and handcuffs, what? (fuck, me!)I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!)I'm bout to throw some game, they both one and the same  
Cupid's the one to blame, say it (make love to me)  
I'm bout to shed some light, cause each and every night  
You gotta do it right, what? (fuck, me!)
