Heads Up, Hearts Down

I Fight Dragons

Take a number dear
Wait your turn and don't get out of line
Every thing you fear
Paint it black in the back of your mind
You just go on breathing
RepeatingHeads up, hearts down
Steady as she goes
Don't break step
Don't make a soundHeads up, hearts down
No one ever knows
What started this exodus
Onward boundYour composure slips
Twenty two and nothing left to do
But resign to this
Bonafide, pilgrim pride, tried and true
So you don't question
This lessonHeads up, hearts down
Steady as she goes
Don't break step
Don't make a soundHeads up, hearts down
No one ever knows
What started this exodus
Onward boundI try to find my strength inside the sound
But I can't fight the darkness all around
I'm bleeding 'till I drownHeads up, hearts down
Steady as she goes
Don't break step
Don't make a soundHeads up, hearts down
No one ever knows
What started this exodus
Onward bound
