Blue Skies

Jumbo Train

Red wine... red wine
Just like you baby it's getting' oh so fineBlue skies... blue skies
Yea that's nice but not as nice as looking in your eyesNo sleep... no sleep
But it's all good no need to count up all those sheepEvery night I look forward to sweet dreams
Every morn excited 'bout a brand new day
Nothin' I can't handle or so it seems
Counting blessings, giving thanks the only wayBrown pop... brown pop
I like it dark and strong with a head on topIn love... in love
It is all around us and it's up aboveCaffeine... caffeine
When it's been too long I wonder where you've beenBlack white red yellow
Jesus Buddha evolution
All heart and soul insideEast west north south
Short wide tall slim
All here to give life a rideYoung old smart not
Man woman boy girl
Crossing paths we all collideLive well let live
Love hard move mountains
Pushing from the same side, side, sideEvery night I look forward to sweet dreams
Every morn excited 'bout a brand new day
Nothin' I can't handle or so it seems
Counting blessings, giving thanks the only wayEh hey, eh hey, eh hey
