Switch Off The Moment

Dolores O'riordan

Some mental anguish in my head
Wake me up I am not dead
Ignite a fire in my soul
A passing moment
Accumulating in my mind
Are the thoughts I left behind
Accumulating in my head
Switch off the moment
I ask you now please
Will you catch me when I fall?
I ask you now please
Will you be there when I call?
I ask you now please
Will you catch me when I fall
Or are you there at all?
Accumulating in my mind
Are the thoughts I left behind
Accumulating in my head
Switch off the moment
I ask you now please
Will you catch me when I fall?
I ask you now please
Will you be there when I call?
I'm begging on my knees
Will you catch me when I fall?
I'm begging now please
Will you be there when I fall?
Falling apart, I feel I'm falling away
I feel I'm, fall, fall, falling apart, wake up
Show me the sun, show me the sun
I can't see the sun, I can't see the sun
Show me the sun, show me the sun
I can't see the sun, I can't see the sun
I ask you now please
Will you catch me when I fall?
I'm begging on my knees
Will you be there when I fall?
Borderline, borderline personality
Borderline, borderline, borderline personality
