## **Astronauts**

## **Secondsmile**

You float like a baby

Trying to escape this covered in tar

But every recording

You keep distorting like an astronautIt's funny old world full of headaches in turnSo whenever you need space

I guess it's okay

When you're floating away

To feel nothing at all

We can be astronauts

If you want to get out of hereYou float like a baby

Looking for safety somewhere on mars

But if I'm mistaken

Your body's in England but your head's in the starsIt's funny old world full of headaches in turnSo whenever

you need space

I guess it's okay

When you're floating away

To feel nothing at all

We can be astronauts

If you want to get out of hereWe can get out of here

We can get out of here

We can be astronauts

We can be astronautsIt's funny old world full of headaches in turnSo whenever you need space

I guess it's okay

(Ay, ay, ay)

When you're floating away

(Ay, ay, ay)

To feel nothing at all

We can be astronauts

If you want to get out of hereWe can get out of here

We can get out of here

We can be astronauts

We can be astronauts
