

Let's Get It On

Matthew Good Band

Hey, there bad seeds, let's get it on

I'll shut up and keep my end

Let's get it on

Our sycophantic replacements are here at last So impossible

The doubt in the everything, on everything

Is so impossible So load up and keep marching

The push is on So impossible

The doubt in everything, on everything

Is so impossible

Down came your blackbird to suffer in my arms
