

# Don't You Think It's Time

**Don Williams**

Don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about  
Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along  
We know the songs of all the wrongs  
Love that died, nobody tried  
But here and now I know what's true  
I can't live without you  
So don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about  
Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along  
Find the page that says we're old  
Is love at home or is it cold  
So don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about  
Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along
