

A Perfect Vision of the Rising Northland

Immortal

Winter of the ages so dark so cold
That flames turn into the bluest frostMountains of ice rises above a dead and a frozen ground
The ravens return to the hills
And the Millennium black bells of eternal frost
Chime to the Northern lightningUpon the mountain side I stand
The floods of black runs belowHair of a cold goat scalp I kiss
Eye's taken mountains still breathes at one
To the poisoned groundMidnight dark sky open up
A blast of red lightning rides the nightWith doom winds death's angels fly
Across a nearly closed sky line
And the sun freezes at one with the infernal holocaust frozen clouds"Centuries of doom reigned by the Goat
Throne of desire
Raised by sorcery to the Holocaust sky"North black hordes storms
Through invincible cyclones of frost winds
I lift my hands
And join the ceremonial circle of one windEyes of stone now sleep into eternal nights
This winter is foreverA wind of red I rode
A wind of evil coldFor the years that have passed in the North
Brought me a vision of the Goat Throne of desireOn the hill side where I stood I left for another world
Tragedies blows at horizon
The sun freezes to dustA perfect vision of the rising Northland
