Our Love

Jean B. Gerbier

Our love

Honey our love is a seed, lets save the best for last,
sweeter and sweeter our love grows. Our love is just a
dream comes true. Our child will mature. Let's make
this heavenly plan a reality.
Sugar let's hold on to our love. Together and forevermore

Chorus
When the flowers petals bloom, our love flourishes, when
they fall away, our love fades away. Nothing can hold
our love, it will last forever. Our love, our love, our love.

Our children will dream of plans that we've dreamed.
Together we'll form one, in this world of parenthood. Our love
will leave stories behind. Our good moment spent together won't
ever be in vain.
