Remote (feat. Oscar)

Powernerd

V1:
Why isn't there such a thing
Like a remote for real life
I would press rewind
And go back in time

I would walk down the street
And see you for the first time
For the first time
I would see you smile

Cho:
If my life was a movie
I would have a favorite scene
It's the moment when I met you
And I will watch it over and over and over again

V2:
Why isn't there such a thing
Like to live a neverending dream
Cause I am dreaming of you
Since our last time

Nothing can bring you back to me
Nothing exept your love
And I still want a first time
To start over again

Cho:
If my life was a movie
I would have a favorite scene
It's the moment when I met you
And I will watch it over and over and over again
