

# Let's Dance

## Hannah Montana

The weekend's almost done  
The moon is low in the sky  
I feel like going out  
Before the night passes by  
I won't just sit around  
When life becomes a drag, I dance I like the bass, turn it up  
I like the boom, turn it up  
I need guitar, turn it up  
I like that drum, when they go Let's dance, what the weekend  
What the night is all about  
Let's dance, grab your girlfriends  
Grab your boyfriend, sweat it out Let's dance, move your whole body  
Let's start the party to much rock for  
One girl can make her go crazy  
I need someone to dance with me, baby The music's on, turn it up  
My favorite song, turn it up  
And all night long, we'll turn it up  
And we'll dance When the night says hello  
Yeah, get ready to go  
Turn it up, turn it loose  
Yeah, you've got no excuse  
Just take a chance  
Get out on the floor and dance Let's dance, what the weekend  
What the night is all about  
Let's dance, grab your girlfriends  
Grab your boyfriend, sweat it out Let's dance, move your whole body  
Let's start the party to much rock for  
One girl can make her go crazy  
I need someone to dance with me, baby
