

# Coming Down

Halsey

I found God  
I found him in a lover  
When his hair falls in his face  
And his hands so cold they shake I found the Devil  
I found him in a lover  
And his lips like tangerine  
In his color coded speak Now we're lost somewhere in outer space  
In a hotel room where demons play  
They run around beneath our feet  
We roll around beneath these sheets I've got a lover a love like religion  
I'm such a fool for sacrifice  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down I've got a lover and I'm unforgiven  
I'm such a fool to pay this price  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down I found a martyr  
He told me that I'd never  
With his educated eyes  
And his head between my thighs I found a savior  
I don't think he remembers  
'Cause he's off to pay his crimes  
And he's got no time for mine Now we're lost somewhere in outer space  
In a hotel room where demons play  
They run around beneath our feet  
We roll around beneath these sheets I've got a lover a love like religion  
I'm such a fool for sacrifice  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down I've got a lover and I'm unforgiven  
I'm such a fool to pay this price  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down Down, down, down, down, down, down  
Down, down, down, down, down, down  
Down, down, down, down, down Every single night pray the sun will rise  
Every single time make a compromise  
Every single night pray the sun will rise, but It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down I've got a lover a love like religion  
I'm such a fool for sacrifice  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down I've got a lover and I'm unforgiven

I'm such a fool to pay this price  
It's coming down, down, I'm coming down  
It's coming down, down, I'm coming down Every single night pray the sun will rise  
Every single time make a compromise  
Every single night pray the sun will rise, but He's coming down, down, I'm coming down  
He's coming down, down, I'm coming down It's coming down, down, I'm coming down  
He's coming down, down, I'm coming down It's coming down, down, I'm coming down  
He's coming down, down, I'm coming down
