

Circle

Club America

We were smiling
The first love
Book in hands
Full of tales
We were learning
The first chords
Life is one
It depends on us We were there
And there we were growing up in many ways
We are here and now
Remember all that good days It's a circle
That's where we are
Our hearts can feel
Good days stand still We were running
First best friend
All boys and girls
They may vary or change
We were dreaming
Stories for new lives
