Sleep It Off

Emerson Drive

I've got one of those feelings
This could be one of those weekends
Don't need no better reason
To let it all out, let it all out
Just keep the cold drinks coming
I think we're on to something
We could stay right here and just do nothing
'Til the sun goes down
So just let the good times keep on rollin'
Open up the cooler I'll do the pourin'
Baby 'cause this night is just getting going
There's no need to worry 'bout the morning
'Cause we'll just sleep it off
We'll just sleep it off
We got people dancing up on the counters
Crank the speakers, turn 'em up a little louder
'Cause we're gonna keep this place rockin' for hours

Having a good time, yeah, that's right
Open up the cooler I'll do the pourin'
Baby, 'cause this night is just getting going
There's no need to worry 'bout the morning
No I don't want to see this night end
But tomorrow we can do it all over again
We'll just let the good times
Keep on rollin'
Open up the cooler I'll do the pourin'
Baby 'cause we'll just let the good times
Keep on rollin'
Open up the cooler I'll do the pourin'
This night is just getting going
There's no need to worry 'bout the morning
'Cause we'll just sleep it off
