Advisory - the following lyrics contain explicit language:

Knock it all down
Will this song live on long after we do?
Will this song live on?(Can I graduate?)
Can I look at faces that I meet?
Can I get my punk-ass off the street?
I've been living on for so long(Can I graduate?)
To the bastard talkin' down to me
Your whipping boy calamity
Cross your fingers, I'm goin' to knock it all downCan I graduate?
Can I graduate?
Can I graduate?
Can I graduate?Echo fadin', we can't let go
She goes walkin' by in slow-mo'
Sell your heart out for a buck
Go on, fade out before I get stuckTalkin' to somebody like you
Do you live the days, you go through
Will this song live on, long after we do
(Can I graduate?)Can I look at faces that I meet?
Can I get my punk-ass off the street?
Won't die on the vine, I wanna knock it all down
(Can I graduate?)Echo fading, candle blow
Did you flash out long ago?
Cross my fingers, I don't know
Someone poked you down belowCan I graduate?
Can I graduate?
Can I graduate?
Can I graduate?
Can I graduate?Can I get my punk-ass off the street?
Can I look at faces that I meet?
I'm not waiting here for you to fly
(I mind)Will this song live on long after we do?
(I mind)

Long after we do?
