Blurred

Lifer

Make up your mind, what's your decision
Don't say that to me, looking back to before
Was it me that pushed you out the door?
Now I am the one that you want to meet
I can't shake your handYou stared at your son but not for long
I wasn't the one that gave you up
Believe in you, son, 'cause I'm right here
You were never thereIt's not like before, somewhere in the middle of it all
You're looking at me, thinking back to before
It wasn't me that pushed you out the door
Now I am the one that you want to meet
You're my newest fanYou stared at your son but not for long
I wasn't the one that gave you up
Believe in you, son, 'cause I'm right here
You were never there
