On My Way

Boyce Avenue

I Wasn't there the moment you first learned to breathe
But I'm on my way
On my way
I wasn't there the moment you got off your knees
But I'm on my way
On my way
Lay down
And come alive in all you've found
All you're meant to be
And for now
We'll wait until the morning light
And close our eyes to see
Just close your eyes to see
A tear must have formed in my eye
When you had your first kiss
But I'm on my way
On my way
So leave a space deep inside for everything I'll miss
Cause I'm on my way
On my way

Lay down
And come alive in all you've found
All you're meant to be
And for now
We'll wait until the morning light
And close our eyes to see
Just close your eyes to see
And when you feel no saving grace
Well I'm on my way
On my way
And when you're bound to second place
Well I'm on my way
On my way
So don't believe it's all in vain
Cause I'm on my way
On my way
The light at the end is worth the pain
Cause I'm on my way

On my way
I'll be there the morning you come out in white
Cause I'm on my way
On my way
