

I Think I'm in Love

Spiritualized

Sun so bright that I'm nearly blind
Cool cause I'm wired and I'm out of my mind
Warms the dope running down my spine
But I don't care about you and I've got nothing to do
Free as the warmth in the air that I breathe
Even freer than dmt
Feel the warmth of the sun in me
But I don't care about you and I've got nothing to do
Love in the middle of the afternoon
Just me, my spike in my arm and my spoon
Feel the warmth of the sun in the room
But I don't care about you
And I've got nothing I think I'm in love
Probably just hungry
I think I'm your friend
Probably just lonely
I think you got me in a spin now
Probably just turning
I think I'm a fool for you babe
Probably just yearning
I think I can rock and rool
Probably just twisting
I think I wanna tell the world
Probably ain't listening
Come on I think I can fly
Probably just falling
I think I'm the life and soul
Probably just snorting
I think I can hit the mark
Probably just aiming
I think my name is on your lips
Probably complaining
I think I have caught it bad
Probably contagious
I think I'm a winner baby
Probably Las Vegas
Come on I think I'm alive
Probably just breathing
I think you stole my heart now baby

Probably just thieving
I think I'm on fire
Probably just smoking
I think that you're my dream girl
Probably just dreaming
I think I'm the best babe
Probably like all the rest
I think that I could be your man
Probably just think you can
Come on
