

Calm Before the Storm

[Eliza Gilkyson](#)

Easy does it darling
Let the good times roll
Many a mile to go before you close your eyes
And rest your weary soul

Savour all the laughter
Outside the dark clouds form
No-one knows what will come after here tonight
In the calm before the storm

I can't dance this one without you
Stay inside here where its warm
Gather all your friends about you here tonight
In the calm before the storm

Bridge

Even when the winds are sailing
And you are lost out on uncharted seas
The compass of your heart won't fail you now,
Because it was made for times like these

Easy does it darling
Let your hair down to the morn
Many loved ones are together here tonight,
In the calm before the storm
