

# Dreams I Dream for You

## Avalon

You taste the tears  
You're lost in sorrow  
You see your yesterdays  
I see tomorrow You see the darkness  
I see the spark  
You know your failures  
But I know your heart The dreams I dream for you  
Are deeper than the ones you're clinging to  
More precious than the finest things you knew  
And truer than the treasures you pursue Let the old dreams die  
Like stars that fade from the view  
Then take the cup I offer and drink deeply of  
The dreams I dream for you You see your shame  
But I see your glory  
You've read one page  
But I know the story I hold a vision  
That you'll become  
As you grow into the truth  
As you learn to walk in love The dreams I dream for you  
Are deeper than the ones you're clinging to  
More precious than the finest things you knew  
And truer than the treasures you pursue Let the old dreams die  
Like stars that fade from view  
Then take the cup I offer and drink deeply of  
The dreams I dream for you, oh yeah Let the old, let the old dreams die  
Like stars that fade from view  
Then take the cup I offer and drink deeply of  
The dreams I dream for you Drink deeply of  
The dreams I dream for you, oh yeah  
The dreams I dream for you
