Headshot!

MyChildren MyBride

I am the last of a dying breed
the Spartans; built to fight and born to lead
we will destroy the covenant and make them bleed
Cortana lead me through your eyes I will see

Heading off to the halo rings
finding out that earth is the final key
destroying the flood for all eternity
killing brutes, jackals, grunts, and covenant elites

I am the master chief
no one can mess with me
saving the world from catastrophe
unleashin' BXR's and killing sprees

let?s start a match, Team Slayer on Lockout
battle rifles blazin', you're gonna get knocked out
turn the corner, and im'a stick you right in da' grill
gettin? no scoped beat down, I?m one in a mill'

HEADSHOT!

unstoppable

team skirmish CTF on Zanzibar,
capturing flags, gettin? my battle scars
time to defend, I?m bustin? heads with my shotgun
second round secured, another battle won

I am the MASTER CHIEF
no one can MESS WITH ME
saving the world from caTASTROPHE
unstoppables and KILLING SPREES
