

# Long Way South

## Driveshaft

Torrential high seas  
Dragged me to my knees  
Bleeding perfumed blood  
Magic mixed with mud and Grace I need you to ease  
My place in this world  
Of face I don't want to ever Death defying breeze  
Is just what I need  
Ease this passing blood  
Pressure in my ears and Grace I need you to ease  
My place in this world  
Of face I don't want to ever Torrential high seas  
Dragged me to my knees  
Bleeding perfumed blood  
Magic mixed with mud and Grace I need you to ease  
My place in this world  
Of face I don't want to ever
