

# What Go Around Come Around, Kid

## Cypress Hill

x2

Come on come  
(time, time, time for some action)  
Yeah Yeah  
(time, time, time for some action)

Drunk ass fool, just a punk ass gonna 'cause trouble  
Yeah, let me burst that bubble in a hurry  
I ain't happy, so worry, what's a judge and a punk ass jury?  
Homeboy, should i'm done to go home?  
But you got caught up inside the cyclone

If I go home, I'll get slopped and stoned  
When I disconnect that fuckin' neck bone  
Then ya get the kick to jaw  
Kid and I rip out ya eyelids, so you can see  
The head nigger at it, killa  
Comin' when I break on the static

x4

What go around, come around, kid  
(go around)  
What go around, come around, kid  
(go around)

Shit, I get real shit, yo shit, can ya feel it  
Carbon copy come steal it  
That gatt I conceal it under my jacket  
Oh where, oh where do you think I pack it?

Under my belt, when the cards get dealt to all the players  
And though the punk ass fakers  
Just come and ya get the high pitched hum  
Make ya understand where I'm from

The east side brown kid looks around  
Put down dump it must fall down  
it's on, when you wanna take my pound  
Punk, what go around come around

x4

What go around, come around, kid  
(go around)  
What go around, come around, kid  
(go around)

Time, time, time for some action  
(check me and I'll check you back)  
Time, time, time for some action  
(check me and I'll check you back)

When they come with the static cling, it's nothing  
Make ya sing the blues like B.B. King  
I got the roughneck scales to give awhile  
Like voodoo child, nuthin but style  
Take it but you can see the black glock clickin'  
Point my gatt at the punk ass victims

Step up or you can step back though the doors  
You can bring it on if ya wanna caome get yours  
But ya better look over ya shoulder  
'Cuz a loss of blood gets the body much colder

x4

What go around, come around, kid  
(go around)  
What go around, come around, kid  
(go around)

Time, time, time for some action  
(check me and I'll check you back)  
Time, time, time for some action  
(check me and I'll check you back)

Time, time, time for some action  
(check me and I'll check you back)  
Time, time, time for some action  
(check me and I'll check you back)  
(check, check, check me and I'll check you back)  
(check, check, check me and I'll check you back)
