Crying Out

Hyland

We've come so far
To make all the same mistakes
It seems so hard
To lift up our hands and pray
We see the scars
And the chances that slip away
But they're covered by grace

We're cryin out for freedom

Chorus:
You're love is in the air we breathe
Open our eyes to the urgency
So much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

The plans we've made
All the maps and the strategy
Lets turn our gaze
Untill it's only you we see
We'll find a way
When we finally give up the lead
It's you we need

Chorus:
You're love is in the air we breathe
Open our eyes to the urgency
So much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

We're cryin out for freedom
We're singing glory and grace
We're cryin out for freedom
We're singing glory and grace

Chorus:

You're love is in the air we breathe
Open our eyes to the urgency
So much more that we could be
Our lives are crying out
You're love is in the air we breathe
Open our eyes to the urgency
So much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

We're cryin out for freedom
We're singing glory and grace
We're cryin out for freedom
We're singing glory and grace
