

# Feed the Night

## The Promise Ring

Feed the night  
With alibis that simplify our lives  
And justify our deep endsWe speak in tongues  
Keep our conversations off the table  
Off the streets are filled with iceI feel all bone  
My heartbeat feeds back makes you crazy  
When you are remembering a songIt's so hot  
Our clothes just hang on us like we are  
In the closet wait impatientlyAnd we get out  
We still need to be rememberedFeed the night  
With alibis that simplify our lives  
And justify our deep endsI feel at home  
Country feedback makes me crazy  
Remembering
